

Assignment 5: Python Conditional Statement

1. Positive, Negative, or Zero (if-elif-else)

Write a Python program that takes an integer from the user and checks whether the number is Positive, Negative, or Zero.

2. Even or Odd (if-else)

Write a Python program that asks the user to enter an integer and determines whether it is Even or Odd.

3. Voting Eligibility (if-else)

Write a Python program that asks the user to enter their age. If the age is 18 or above, print 'You are eligible to vote.' Otherwise, print 'You are not eligible to vote.'

4. Grade Calculator (if-elif-else)

Write a Python program that asks the user to enter their marks (0–100) and displays the grade: 90–100:A, 80–89:B, 70–79:C, 60–69:D, Below 60:F.

5. Largest of Three Numbers

Write a Python program that takes three numbers as input from the user and prints the largest number.
